

Compactor Sensor Trash Can™

Model#

CP13P

Compactor Sensor Trash Can™ combines our smart-sensor touchless lid technology with a built-in, foldaway compacting tool. Use up to **50% fewer trash bags** and take out the trash less often when you compact, saving time, money, and the environment.

At a fraction of the cost of electric trash compactors, **Compactor Sensor Trash Can** is as affordable as it is functional. Our enhanced, energy-saving technology extends the life of the battery up to a full year. This is the must-have trash can for everyone who is concerned about the environment.
