

AirStep

AirStep™

AirStep™ trash can is the most sophisticated step trash can ever made. From its low-effort, ergonomic step-activated open to its ultra-gentle, silent close, this trash can offers the most reliable and consistently pleasant available in a step trash can. The pedal has been designed to perform perfectly for over 200,000 steps; that's years of rigorous, daily use! Designed for maximum space efficiency, *AirStep* provides 25% more capacity than comparably sized trash cans. The trash bag retainer ring keeps the bag in place and out of view, while air vents at the bottom provide effortless trash bag removal. An easy to replace air damper means this trash can will provide like-new performance for decades of use.
